PROFILE SUMMARY

Full Stack Engineer with 1+ years of experience developing responsive, component-based web applications using React.js, Node.js, Flask, MySQL, MongoDB, Bootstrap, and TailwindCSS. Skilled in building intuitive, user-friendly interfaces and delivering high-quality full-stack solutions that address real-world problems. A responsible and adaptable team player eager to learn, grow, and contribute creatively in collaborative environments.

EDUCATION

BSc. Engineering (Hons) in Computer Engineering - University Of Sri Jayewardenepura *2021 - 2025*

- Second Class Honours - GPA - 3.2
- Minor in Data Management

Certificate Course in Computer Applications - IHRA, University Of Colombo *2019 - 2020*

- Merit Pass

GCE A/L Examination (2019) - Gurukula College, Kelaniya. *2010 - 2018*

- Combined Maths - A, Chemistry - A, Physics - B
- Z score - 1.5873

WORK EXPERIENCE

Associate Software Engineer Intern - Adveccio (Pvt) Ltd. *MAY 2024 - NOV 2024*

- **Web Application Rewrite:** Migrated a legacy desktop system to a modern LAN-based web application with JWT authentication, role-based access control, RESTful API integrations for secure, efficient data handling.
- Designed and developed 7+ interactive and dynamic UI screens, including a secure SQL query interface, RESTful API integrations, dynamic sidebar navigation, and theme customization. Conducted UI/UX design, testing, and debugging to ensure a seamless high-performance user experience and optimal performance.
- **ERP System:** Collaborated in a 6-member Agile team to develop report generation components, fix 5+ critical bugs (unsaved data navigation blocker), ensure data integrity, and maintain the codebase using Git/GitHub.
- **Manufacturing Website (R&D)**: Built a web-based tool to analyze the financial impact of manufacturing delays and integrated sales forecasting using linear regression, Chart.js, and contributed to performance optimization.
- Technologies Used - JavaScript, React.js, Bootstrap, TailwindCSS, Flask, MySQL, REST APIs, Git/GitHub

PROJECTS

Seatify - Real-Time Cafe Occupancy Monitoring Web App (Final Year Project) *NOV 2024 - JULY 2025*

- Initiated and led the concept for project, which uses CCTV feeds and computer vision to monitor seat occupancy in real time, helping customers reduce wasted visits and enabling cafe owners to manage seating and reservations efficiently.
- Developed key features including responsive design, theme integration, secure authentication and role-based access, enhancing customer experience and delivering actionable analytics through interactive charts.
- Selected for the **Final Rounds of NBQSA ICT Awards 2025** under the Tertiary Business Category.
- Tech Stack: React.js, Tailwind CSS, Flask, MySQL, JWT authentication, RESTful APIs, OpenCV

Interacta - AI-powered dynamic quiz generator (Individual Project) *JULY 2025 - AUG 2025*

- Addressed inefficient manual quiz creation by developing a web app that generates AI-based quizzes for products from product descriptions or any domain, improving interactive customer engagement.
- Implemented 4 responsive user-friendly interfaces, integrated RESTful APIs, and added gamification elements to enhance product promotion and user experience with LLM API integration.
- Tech Stack: MongoDB, Express.js, React.js, Node.js, Bootstrap, LLM API Integration, RESTful APIs

Invoicely - Billing Web App (Individual Project) *AUG 2025 - PRESENT*

- Implementing a responsive full-stack billing web app with intuitive UIs for small businesses, enabling product management, barcode scanning, real-time analytics, and invoice generation.
- Implemented role-based authentication and managed state with React Hooks for seamless user interactions.
- Tech Stack: MongoDB, Express.js, React, Node.js, Tailwind CSS, IndexedDB, REST APIs

Quizee - Festival Based In-Store Quiz Web App (Individual Project) *NOV 2024 - FEB 2025*

- Built a full-stack web application that enables customers to participate in seasonal quizzes to promote cultural awareness and boost store engagement while enhancing store loyalty.
- Implemented responsive, component-based web interfaces with features for quiz management, timed participation, scoring, and reward tracking, creating an interactive and educational shopping experience.
- Tech Stack: React.js, TailwindCSS, Flask, MySQL, JWT authentication, RESTful APIs

TECHNICAL SKILLS

Skills: JavaScript (ES6+), Python, HTML, CSS, React.js, Node.js, Flask, SQL, MongoDB, MySQL, Bootstrap, TailwindCSS, Material UI, REST API, Jest

Tools and Platforms - Git/GitHub, Postman, Figma

EXTRA-CURRICULAR ACTIVITIES

Graphic Designer *2022 - 2025*

- CENSOC Computer Engineering Society & Technical Sub-Committee - FOE, USJ

Deputy Head Prefect *2017/2018*

- Gurukula College, Kelaniya

Secretary - Science Society *2017/2018*

- Gurukula College, Kelaniya

House Captain - Inter House Sports Meet *2017/2018*

- Gurukula College, Kelaniya

CERTIFICATIONS

- Introduction to Front-End Development - Meta (Coursera) *JULY 2024*
- React Basics - Meta (Coursera) *OCT 2025*
- MySQL Explorer Badge - Oracle *MAY 2025*
- Getting Started with Git and GitHub - IBM (Coursera) *SEPT 2025*
- Python for Beginners - University of Moratuwa *JULY 2022*

SOFT SKILLS

Leadership, Team Collaboration, Quick Learning, Adaptability, Effective Communication, Creative Problem Solving

INTERESTS

UI/UX, Painting, Reading, Graphic Designing, Coding, Yoga, Meditation
