PROFILE SUMMARY

Computer Engineering graduate with strong interests in Software Engineering and Full-Stack Development. Experienced in building practical, user-focused solutions to real-world problems, with additional exposure to AI-powered applications. A responsible and adaptable team player, eager to learn, grow, and contribute creatively within collaborative environments.

EDUCATION

BSc Engineering (Hons) in Computer Engineering - University Of Sri Jayewardenepura *2021 - 2025*

- Second Class Honours - GPA - 3.2
- Minor in Data Management

Certificate Course in Computer Applications - IHRA, University Of Colombo *2019 - 2020*

- Merit Pass

GCE A/L Examination (2019) - Gurukula College, Kelaniya. *2010 - 2018*

- Combined Maths - A, Chemistry - A, Physics - B
- Z score - 1.5873

WORK EXPERIENCE

Associate Software Engineer Intern - Adveccio (Pvt) Ltd. *MAY 2024 - NOV 2024*

- **Web Application Rewrite:** Migrated a legacy desktop system to a modern LAN-based web platform with JWT authentication and role-based access control. Developed features including dynamic sidebar, customizable themes, secure SQL query screens, and performed UI design, testing, and bug fixing to enhance reliability.
- **ERP System:** Collaborated in an Agile team to develop report generation components, resolve critical bugs (unsaved data navigation blocker), ensure data integrity, and maintain the codebase using Git/GitHub.
- **Manufacturing Website (R&D)**: Built a web-based tool to analyze the financial impact of manufacturing delays and integrated sales forecasting using linear regression and Chart.js.
- Technologies Used - JavaScript, React.js, Bootstrap, TailwindCSS, Flask, MySQL, REST APIs, Git/GitHub

PROJECTS

Seatify - Real-Time Restaurant/Cafe Occupancy Web App (Final Year Project) *NOV 2024 - JULY 2025*

- A web application using CCTV feeds and computer vision to monitor seat occupancy in real-time, helping customers avoid wasted visits and enabling cafe owners to manage seating and reservations efficiently.
- Contributed to full-stack development with role based access and pose estimation logic, enhancing customer experience and providing actionable analytics for business owners.
- Tech Stack: React.js, Tailwind CSS, Flask, MySQL, JWT authentication, RESTful APIs, OpenCV

Interacta - AI-powered dynamic quiz generator (Individual Project) *JULY 2025 - AUG 2025*

- Addressed inefficient manual quiz creation by developing a web app that generates AI-based quizzes for products from product descriptions or any domain, improving interactive customer engagement.
- Handled full-stack development and implemented features to gamify product promotion.
- Tech Stack: MongoDB, Express.js, React.js, Node.js, Bootstrap, LLM API Integration.

Invoicely - Billing Web App (Individual Project) *AUG 2025 - PRESENT*

- A full-stack billing system for small businesses to manage products, barcode scanning, real-time analytics, generate invoices, and track sales efficiently with offline-first support.
- Implemented secure authentication, providing a user-friendly experience for seamless business operations.
- Tech Stack: MongoDB, Express.js, React, Node.js, Tailwind CSS, IndexedDB

Quizee - Festival Based In-Store Quiz Web App (Individual Project) *NOV 2024 - FEB 2025*

- A web app that enables customers to participate in seasonal quizzes, promoting cultural awareness, increasing engagement, and enhancing store loyalty.
- Built full-stack features for quiz management, timed participation, and reward tracking, creating an interactive and educational shopping experience.
- Tech Stack: React.js, TailwindCSS, Flask, MySQL

RentHub - Smart Short-Stay Rental Management System (Individual Project) *MAR 2024 - JAN 2025*

- A full-stack web app combining property management with predictive ML models for price, occupancy, and review score predictions, helping renters and owners make data-driven decisions.
- Implemented full-stack features, role-based access, and ML integration, and enhance overall user experience.
- Tech Stack: React.js, TailwindCSS, MySQL, Python, Machine Learning

PROFESSIONAL SKILLS

Programming Languages - C++, Python, JavaScript, SQL
Frontend Development - HTML, CSS, React.js, Bootstrap, TailwindCSS
Backend Development - Flask, Node.js
Databases - MySQL, MongoDB
Tools and Platforms - Git, GitHub, Postman, Figma

EXTRA-CURRICULAR ACTIVITIES

Graphic Designer *2022 - 2025*

- CENSOC Computer Engineering Society & Technical Sub-Committee - FOE, USJ

Deputy Head Prefect *2017/2018*

- Gurukula College, Kelaniya

Secretary - Science Society *2017/2018*

- Gurukula College, Kelaniya

House Captain - Inter House Sports Meet *2017/2018*

- Gurukula College, Kelaniya

CERTIFICATIONS

- Introduction to Front-End Development - Meta (Coursera)
- MySQL Explorer Badge - Oracle
- Python for Beginners - University of Moratuwa

HIGHLIGHTS

- **Final Year Project:** Selected for final rounds of **NBQSA ICT Awards** (Results pending)
- **Soft Skills:** Leadership & Team Collaboration, Quick Learner & Adaptable, Effective Communicator, Creative Problem Solver
- **Interests:** Coding, Yoga, Meditation, Painting, Reading, Carrom
